KAISER GIVES GLAD HAND TO PANAMA

Germany Formally Extends Best Wish To the New Republic on The Isthmus.

DEEP PLOT REVEALED

Colombians Counseled to Kill United States Minister Beaupre, But Wiser Heads Prevailed—Salvadoreans Protest.

[By Telegraph to The Age.]

Washington, Dec. 1.—The republic of Panama has been officially recognized as a sovereign and independent state by Germany, and it is confidently expected that other nations will act in similar manner.

Baron Von Dem Busche-Haddenhausen, first secretary of the embassy and chargé d'affaires, addressed a note to M. Banao-Varilla, the minister from Panama, informing him that the German government having received his notification of the creation of the new republic and his formal assurances that Panama assumed and would execute all obligations contained in the treaties between Germany and Colombia, so far as they affected territory over which Panama is now sovereign his majesty, the emperor and king, extended full recognition to the new republic and best wishes for its prosperity and long life.

Several days ago when the German government inquired of Minister Banao-Varilla whether Panama would carry out the treaty stipulation of the existing conventions between Germany and Colombia the minister replied that his government readily assumed these obligations so far as they affected the territory over which the republic of Panama exercised sovereignty, but that the Panama government must necessarily exempt from this pledge the canal strip, over which the Hay-Bunau-Varilla treaty grants sovereign rights, power and authority to the United States. The German government has readily assented to this exemption, thus signifying her approval of this provision of the new canal treaty.

Baron Von Dem Busche called at the state department and officially informed this government of Germany's action. In view of the precedent set by Germany it is expected that the other European powers will grant an equally full recognition to the new republic and exempt from all obligations, so far as the Panama government is concerned, the territory five miles on each side of the canal route commonly known as the canal strip.

Wanted to Kill Beaupre.

Colon, Dec. 1.—Luis De Roux, who was a member of the Colombian house of representatives from Panama, who made a speech in the house Oct. 2 warning Colombia to sign the Hay-Herran canal treaty immediately or she would lose the isthmus the day congress closed, and who was instrumental in bringing about the appointment of General Obaldia as governor of Panama, has arrived here from Bogota, whence he started Nov. 1. Senor De Roux is a Panamanian. He was subjected to annoyances and affronts at Bogota. When De Roux left Bogota the United States legation was guarded continually by 50 soldiers armed with rifles. A governmental consulting committee has been formed at Bogota. It is composed of Liberals, Conservatives and Nationalists. According to good authority at one meeting of the committee the statement was heatedly made that Mr. Beaupre must be killed, whether the United States destroyed Cartagena or not in retaliation. Wiser counsels, however prevailed.

Salvadoreans Protest.

Panama, Dec. 1.—Dispatches from La Libertad, Salvador, say that several meetings have been held throughout Salvador at which protests were made against the action of the United States government on the isthmus of Panama. All Salvadorean papers publish articles indorsing these protests, the only exception being the Diario de San Salvador, which prints editorials favorable to the United States government. The attitude of the government of Salvador concerning the republic of Panama continues to be one of reserve.

DECLARES WOOD WAS MENACE TO DISCIPLINE

AN OHIO BOY NOW SENATOR FROM OREGON

Charles W. Fulton of Astoria, the new senator from Oregon, is a native of Ohio, but his boyhood days were spent in Iowa. Later he removed to Nebraska, where he studied law and was admitted to the bar. It was in 1876 that he turned his steps toward the state that

was later to send him to the United States senate. When Mr. Fulton landed in Portland he was without friends or money and was glad to take a job as schoolteacher in a country district. After one term he went to Astoria and hung out his shingle as a lawyer. Senator Fulton has been prominent in Oregon politics since 1880 and an active campaign worker. He was elected to the United States senate as a Republican to succeed Joseph Simon.

Courts to Decide in Chicago Street Railway Strike.

[By Telegraph to The Age.]

Chicago, Dec. 1.—The question regarding the relation to work of employees of the Chicago City Railway company who were guilty of acts of violence during the course of the recent strike will be settled by the courts. Thirty-five of the men have not been reinstated. At the time the peace negotiations were in progress Mayor Harrison promised the strikers that he would see to it that none of the deserving strikers should be refused reinstatement. The men who have been locked out by the company appealed to Mayor Harrison. At a conference between the mayor and E. R. Bliss, general counsel for the company, it was agreed to leave the matter to the decision of the courts. All who are acquitted will be reinstated.

General Brooke Gives Sensational Testimony At Trial.

Produces Records in Substantiation—Wood May be Called Home.

[By Telegraph to The Age.]

Washington, Dec. 1.—Hearing on the charges of insubordination made against General Leonard Wood was continued before the senate committee on military affairs, the principal witness being Major General John R. Brooke, retired, former governor general of Cuba.

Major General Brooke was before the committee more than two hours, and occupied the entire time in telling of General Wood's conduct at Santiago. The witness offered in support of his statements many documents taken from the records at the war department and several papers from his personal collection. At the close of his testimony a member of the committee said it is probable that General Wood would have to return from the Philippines and testify.

One of the charges made by General Brooke is that General Wood violated the order which required him,

SEVENTEEN OFFICIALS ARE INDICTED

Startling Confession of Attorney on Witness Stand—Names and Amounts.

[By Telegraph to The Age.]

Grand Rapids, Mich., Dec. 1.—A tremendous sensation was caused by the confession of ex-City Attorney Lant K. Salsbury in regard to the notorious water scandal in this city. Salsbury told his story in court at the preliminary examination of State Senator David Burns, and his testimony was startling on account of the number of prominent persons it implicates in addition to the 17 officials and former officials who were arrested on bribery charges 10 days ago.

Six separate water conspiracy deals were on in Grand Rapids at one time according to Salsbury's sworn testimony, each gigantic in its size and calling for the use of a hoochie fund. In addition to the Henry Taylor \$100,000 Lake Michigan water deal he testified that there were five other strings out, from each one of which thousands of dollars were hanging. Every one of these six sets of men

Alleged Assassin a Prominent Young Farmer—Shot Through Window Into Group at Fire Side.

[By Telegraph to The Age.]

Hodgenville, Ky., Dec. 1.—Two men were killed, one mortally wounded and another seriously hurt in the Pike View neighborhood of Hart county. The dead are: Squire Osborne; Dave Osborne, his son. Wounded: Will Gardner, mortally; John Bennett. The alleged murderer, Custer Gardner, a young farmer, was caught at Elizabethtown after a desperate struggle and was taken to Mumfordsville and lodged in jail.

Under cover of darkness, while the intended victims were sitting around the fireside, the assassin crept to the window of the room and, placing his Winchester near the glass, fired several times. Squire Osborne fell to floor dead, his head almost torn off. His son, Dave Osborne, was shot through the heart, and Will Gardner was wounded in the abdomen. John Bennett's left arm was shattered by a ball.

Squire Osborne is a district magistrate. The trouble had its inception in a family quarrel, which developed into a factional fight. Gardner has heretofore borne a good reputation. The tragedy has caused the greatest excitement in years in Larue, Hart and Hardin counties, where the principals are well known and have many relatives.

EIGHT HOUR LAW IS LEGAL

United States Supreme Court Gives Important Decision.

[By Telegraph to The Age.]

Washington, Dec. 1.—The United States supreme court has affirmed the constitutionality of the eight-hour law of the state of Kansas regulating labor on public works. Justice Harlan said, in handing down the opinion of the court that if the statute is mischievous the responsibility rests with the legislature and not with the courts. Chief Justice Fuller and Justices Brandeis and Peckham dissented.

CHICAGO GOES AFTER G. O. P. CONVENTION IN EARNEST MANNER

[By Telegraph to The Age.]

Chicago, Dec. 1.—The plans of Chicago Republicans to secure the next Republican national convention for this city have been completed, according to James J. Sheridan, president of the Hamilton club, which has taken the initiative in the matter. A special train with a party of 50 or 75 influential citizens, headed by National Committeeman Graeme Stewart and Mr. Sheridan will leave Chicago Dec. 9. Quarters have been secured at the Arlington hotel where the committee will meet.

A SURPRISE FOR CONGRESS.

The Nurse: "What! Two of 'em? I thought there was only one."—Minneapolis Journal.

In making improvements in Santiago to submit estimates to the governor general. As evidence of this violation General Brooke called attention to the building of barracks at Santiago near the Morro without General Wood first having given notice to the department at Havana. General Brooke said also that General Wood continually sent communications to the war department over the head of his commanding officer. The witness assured the committee that he cared nothing for the ignoring of his authority, but said that the proceeding had been detrimental to military discipline.

Papers Attacked Brooke.

General Brooke called to the attention of the committee in support of an allegation that General Wood had neglected to work in harmony with the military government the matter of General Wood's attitude toward the newspapers at Santiago, which repeatedly made attacks on General Brooke's administration.

General Brooke read a letter which he had sent to the adjutant general of the war department asking that General Wood be instructed to prohibit the publication of such articles during the period of military government. He also read General Wood's reply to the adjutant general, which the witness said had been sent over the head of his superior officer saying the freedom of speech, untrammelled criticism of the military government and absolute independence in all matters was a necessary part of the education of the Cubans to fit them to conduct a liberal government.

In the course of General Brooke's testimony he said that General Wood became unduly excited when the Cuban held indignation meetings at Santiago for the purpose of protesting against the centralization order. The witness declared that the attitude of General Wood was responsible to a great extent in adding to the dislike of the Cubans.

who put up or offered to advance a corruption fund were dupes, so Salsbury says, of himself, Horlick, McGarry and Sprent.

Never once did Salsbury have to refer to notes, and he rendered his testimony readily and rapidly giving names, dates and occurrences as though the alleged events happened only last week instead of three years ago.

The examination of Senator Burns was completely lost to view in the story of the conspiracy as related by Salsbury. As names of many prominent men were mentioned by Salsbury and the amount he paid to each for their influence or silence was given, there was suppressed murmur of surprise throughout the thronged courtroom.

Alleged Boodlers.

The persons implicated by Salsbury during his testimony against State Senator Burns and the amounts he alleged they received are as follows: George R. Perry, ex-mayor, \$13,725; J. AN OHIO BOY NOW NOTED CHICAGO JURIST

Peter Stenger Grossep of Chicago, Judge of the United States circuit court of appeals of the Seventh judicial district, who is noted for his fearlessness on the bench, was appointed to his present position by President McKinley in 1898. Judge Grossep came prominently before the public soon after his appointment in December, 1892, as judge of the United States district court for the northern district of Illinois in connection with the Chicago labor troubles about ten years ago.

In conjunction with Judge William A. Woods he issued an injunction in favor of the government and against Eugene V. Debs and the strikers. Judge Grossep is a native of Ashland, O., and is fifty-one years old. He is a graduate of the Boston Law school and practiced at Ashland until 1883, when he removed to Chicago. While living at Ashland he had the distinction of making the first nomination of Major McKinley for congress.

Chicago Criminals Arraigned And Pleaded Not Guilty.

[By Telegraph to The Age.]

Chicago, Dec. 1.—The youthful self-confessed murderers and train robbers, Peter Neidermeier, Harvey Van Dine, Gustav Marx and Emil Roedel, were arraigned in court. Marx pleaded guilty to all the charges against him, but his three accomplices pleaded not guilty. Shortly before the prisoners were removed to the county jail Marx was confronted with his three accomplices. Marx's confession implicating Van Dine, Neidermeier and Roedel was read to the prisoners. The bandits arrested in Indiana refused to confirm or deny the contents of the message. Neidermeier told the police that he and Van Dine had made an attempt to kill Marx. Roedel also said that he had narrowly escaped murder at the hands of his accomplices.

TRAINS COLLIDE.

Two Men Lose Lives and Another Is Fatally Injured.

Cincinnati, Dec. 1.—Two men were killed and one fatally injured in a collision between an eastbound freight and a work train on the Norfolk and Western road east of Portsmouth. The dead: Engineer C. C. Mitchell of Kenova; Fireman Frank Sullivan of Kenova. Fatally injured: Brakeman Ellsworth. Both engines were demolished. Property loss, \$10,000.

Dashed Into Open Switch.

Parkersburg, W. Va., Dec. 1.—Passenger train No. 12 on the Baltimore and Ohio Southwestern railroad, eastbound, ran into an open switch at Belpre, two miles west of here, wrecking the engine, baggage and mail cars and three cars of a freight train on the siding. Engineer Frank McWhorter of Chillicothe was seriously injured and William Schriver of Evansville, Ind., was slightly hurt. It is said the engineer of the passenger train failed to see the flagman sent out from the freight.

Shot in His Doorway.

Steubenville, O., Dec. 1.—What may prove to be a fatal shooting grows out of a boxing contest held at Cadiz Junction between Carry Arnold and Jacob Hinds, in which the latter got the worst of it. After the crowd broke up Hinds followed Arnold home, it is said, and calling him to the door, it is alleged, drew a pistol and shot Arnold in the breast. The wound is pronounced fatal.

Prominent Lawyer Suicides.

Columbus, O., Dec. 1.—While suffering from melancholia Courtland P. L. Butler, a prominent local attorney shot himself through the head and died before help could reach him. He had complained of not feeling well for two or three days, but other than that no reason can be assigned for his act. Mr. Butler was a bachelor.

TESTS OF TIMBERS

Timber tests which shall determine the strength of the principal American timbers used for construction purposes are now in progress at Washington, D. C., at Yale university, New Haven, Conn., at Purdue university, Lafayette, Ind., and at the university of California, Berkeley, Cal. These tests are made under the direction of the Bureau of Forestry, and are for the benefit of lumbermen, construction engineers, and scientific men who are interested in the strength of different wood fibers. The Bureau of Forestry plans from the results of its tests to make tables of the strength of different American woods to which the engineer may refer when he wishes to know what timbers to use for certain purposes. The tests will be in cross bending and breaking, compression with and against the grain, and shearing.

No complete and satisfactory series of tests on large sticks of timber has ever been made in this country. Lumber manufacturers in the south and the Pacific Coast states are especially interested in this work, since they wish to know more about their product. They have contributed gratis much of the material used in the tests.

The chief timbers now being tested are southern pines and the red fir of the Pacific coast. In the laboratories at Washington tests are now in progress on loblolly pine sticks 17 feet long and 8 by 14, 8 by 8, and 8 by 4 inches. Special attention is given to the effects of moisture on the strength of wood. In the case of loblolly pine which has grown rapidly, the strength was found to decrease 50 to 60 per cent. after the dry wood had been soaked several days in water. The fact, however, is not yet established and will have to be proved by further experiments. The timbers tested are of the usual grades purchased in the market and are not selected pieces.

At the laboratory of the Yale Forest School in New Haven small selected pieces of longleaf pine, without knots or other defects, are being tested so as to learn what is the ultimate strength of the fibers.

At Berkeley, Cal., tests are being made on red fir from timbers contributed by red fir manufacturers.

Dr. W. K. Hatt, who is stationed at Purdue university, is carrying on a series of tests there with hawthorn timbers and is preparing for publication the results of all the tests of the Bureau.

Two Killed, Four Hurt.

Carthage, Mo., Dec. 1.—The minehouse of the Independent Powder company's plant, five miles southwest of Carthage, blew up, instantly killing the two miners, Lester Ridge and Bert Cobb, and seriously if not fatally injuring four more employees. Ridge and Cobb were employed in the minehouse, compounding by hand the nitroglycerin with the other ingredients of dynamite. Five hundred pounds of material was in a wooden trough and without warning it exploded. They were the only two men in the building, and no one knows what caused the material to combust. The two men were blown to bits and only a few pieces were left.

Found Dead in Refrigerator Car. Minneapolis, Minn., Dec. 1.—Car inspectors working on a refrigerator car which arrived in Minneapolis from Gladstone, Mich., found the frozen body of Earl Seaburg, a young man from Emory, Wis. The body was frozen stiff and the indications are that he was frozen to death while lying unconscious in the ice box. When the body was removed to the morgue a concussion was found back of the right ear, which looked as though he had fallen head first into the ice box of the car. The door of the ice box was closed, and he probably froze to death before he regained consciousness. He was about 18 years old.

A score of lives were lost by storms along the French coast. Charles Kruger, in jail at Greensburg, Pa., confessed to the murders of 16 persons. He is said to be insane. James Molnery, Toledo, O., is charged with killing Policeman James H. Smith, Oakland, Cal. He is at large.

From a compilation made in Chicago the total number of deaths on the football field for 1932 is 19. Thirteen players were severely injured. H. O. Wright Pendleton, Ind., a Purdue student, injured in the Big Four week at Indianapolis Oct. 30, is dead. He is the seventeenth man to die as a result of the wreck.

Alcohol the Curse of All Liquid Kidney Remedies.

Remember this Kidney-Wort Tablets CANNOT contain alcohol. **JAMES BOTTENUS completely cured of the old Kidney Pains.**

James Bottenus, Ravine and McMillan Sts., Cincinnati, O., Sept. 25, 1903, wrote: "I have suffered for some time with severe pains in my back near the kidneys, having tried several so-called remedies all to no avail. Was induced to try Dr. Pettigill's Kidney-Wort Tablets, and can safely say that I am now entirely cured of all my ailments. Have had no recurrence of the old pains, and would cheerfully recommend Kidney-Wort Tablets for all kidney troubles."

"Thank you for the amount of good the Tablets have done me. Kidney disease demand an active less fastened upon them concentrated remedy that can be taken frequently, regularly without interruption. TOO MUCH MEDICINE

The System continually wrought by over-eating and over-drinking, and the debilitated condition aggravated by dosing with harsh, nauseous drugs and medicines

The excessive and indiscriminate use of medicines, in these days, cannot be too strongly condemned. The food you eat, if properly digested, is all the tonic you need.

Only common sense is needed. The food must be digested and the bowels must be allowed to clear. Preserve your health by avoiding these conditions.

Constipation surely leads to indigestion, biliousness, etc., and these conditions when neglected affect the condition of the blood, debilitate the system, rendering it susceptible to more serious ailments, and less able to resist such attacks.

If your stomach has been sickened by over-eating, weakened by drugs or alcohol, you won't have to stop eating nor diet yourself. All you need is something that will aid the stomach in its functions and relieve it from being constantly irritated by undigested food. The purest and simplest remedy for this purpose is the CALIFORNIA PRUNE WAFERS, a natural disinfectant made from the pure, fresh fruit, a natural laxative and sweetener of the stomach—no other medicine is necessary.

When you are bilious, it is a sign that your liver is out of order, and the poisonous bile, instead of being excreted from the body through the intestines, is taken up in the blood. As a result of biliousness, the entire system suffers. There are gripping pains in the abdomen, Headaches, Dizziness, Constipation, Pain in the Right Side, and the skin becomes sallow and yellowish, rough and itchy. Take 2 or 3 CALIFORNIA PRUNE WAFERS after meals, and in a short time your liver will be performing its proper function, driving the bile from the system. Use nothing but CALIFORNIA PRUNE WAFERS—no other medicine is necessary.

CALIFORNIA PRUNE WAFERS, if taken as directed, will positively cure the most obstinate cases of Indigestion, Ferried Liver, Constipation, Biliousness, etc., so as to stay cured. CALIFORNIA PRUNE WAFERS do the work without the slightest pain, griping or nausea. They produce natural and easy movement of the bowels, are easy to take, pure and beautiful.

They are Nature's own remedy, better than pill or purge, better than cathartic teas that grip and nauseate, better than anything for moving the bowels, because CALIFORNIA PRUNE WAFERS are a natural disinfectant and not a purge, acting gently and naturally on the contents of the bowels, producing easy movement. They regulate the liver and stomach, cleanse the system and purify the blood, cure all Bowel Troubles, Bad Breath, Bad Blood, Wind on the Stomach, Foot Ache, Headache, Pimples and Blisters. A dispenser. There are gripping pains in the abdomen.

The City Sportsman.
He purchased a dog and a hunting suit, a
brand new gun and a lot of shells;
He wrote for a farmer friend,
enlisting a trap guide.
And the day the hunting season began he
hustled away, a happy man.
Loaded down with sportsman things,
none of which he had tried,
And there he found,
Upon the ground
Others like him, full of hope and pride.
They took the field like an army corps,
marching through stubble and brush.
The guide was brave, though he faced
their guns and promised that he
would stay.
But each man knew the danger that lay
in wait for a man who closes his eyes.
When he shoots, so they kept their
open wide and marched with joy to the
fray.
And then at last
As the morning passed
A quail rose up and whirled away.
Each gun went up, and the guide dropped
down; the dogs stood still in their
tracks.

Teaching School in The Philippines

Extracts from an Interesting Letter from Harry Lee Finlay,
A Former Coshocton Boy.

Mr. and Mrs. Joseph A. Finlay,
of Millcreek township, have just re-
ceived an interesting letter from their
son, Harry Lee Finlay, who is a
teacher in the Philippine Islands, and
from which the following notes are
taken:

"Balingag (pronounced Ballewag)
Bulacan Province, P. I.
"It is Friday evening and as I
have no school work to prepare for
tomorrow, I will improve the time
by writing home. I was not certain
when I last wrote just where I would
be sent, but last Saturday Mr.
Towner, our superintendent, appointed
me a teacher in the high school,
I consider myself very fortunate to
have a position in the best school in
the Province. There are 27 teachers
in this Province, we have the third
largest school in the Philippine Is-
lands and a daily attendance of over
300. This is a very much better
place than anything in Rombion
province and I am very glad I made
the change.

"The pupils are much more enter-
prising than those of the Southern
Islands, and far in advance of
them. I will enclose two of their com-
positions that you may see their
good penmanship. Some of these
will be sent to the St. Louis expo-
sition. Three hundred Philippine boys
are to go to America to receive in-
structions in our best schools at the
expense of our government, for the
term of four years, and return as
teachers in their native land. They
have been appointed from our school
and will leave not later than Oct.
5. It is a great opportunity for those
who are so fortunate as to go. The
girls do not like it that they are not
allowed to enter the contest, nearly
all our best students are girls. We
are not nearly so isolated here as in

FACIALINE, THE BEAUTIFIER.
If any person, man, woman or child
is troubled with pimples, tan, freck-

Hunter Given Certificate.
Frankfort, Ky., Dec. 1.—The Ken-
tucky election commission issued a
certificate of election to congress
from the Eleventh district to Dr. W.
Godfrey Hunter of Cumberland coun-
ty, late minister to Guatemala. He
was elected at the special election
held on Nov. 10 last to succeed the
late Vincent Boring and to fill out
an unexpired term of one year. The
official vote stood: Dr. Hunter, 6,227;
D. C. Edwards, 6,112; John D. White,
4,457. All are Republicans. There
was no Democratic candidate for the
office. Edwards and White objected
to the giving of a certificate to Dr.
Hunter and threatened a contest in
Washington before congress.

Embezzlement Charged.
Chicago, Dec. 1.—Charged with em-
bezzlement of \$60,000 from the First
National bank of Dundee, Ill., which
closed its doors Nov. 22, Cashier
Francis B. Wright was arrested on
complaint of Receiver David A. Cook
and brought to Chicago. The warrant,
issued by United States Commissioner
Foote, charges Wright with having
wrongfully appropriated this amount
of money between June 1, 1901, and
Nov. 21, 1902. Wright's arrest was
not a surprise, as he has been under
surveillance since the institution
failed. Since that time Bank Exam-
iner Cook has been looking into the
books of the institution.

Transportation Building at St. Louis Exposition.

The transportation building is 525
by 1300 feet, being as wide as the
varied industries building, a short
distance east, and 100 feet longer.
To the south is the machinery build-
ing and on the north across Lindell
avenue are some of the chief attrac-
tions of the "Pike." Sinker road
separates the west end of the struc-
ture from the pavilions of Great Bri-
tain, Mexico and other foreign coun-
tries. The architect was Mr. E. L.
Masqueray, the exposition's chief of
design in the division of works. The
distinguishing feature is the massing
of three great entrance ways at each
end so as to form an arcade taking
up almost the entire facade. Direc-
tor of works Taylor says of the struc-
ture:
"The transportation building covers

over 15 acres. The facades show a
most pleasing adaptation of the
French Renaissance. The building
combines a feeling of the magnificent
exposition building and of the high
class railroad depot which prevail on
the European continent. These two
essential elements are apparent thor-
oughout the structure. On the east
and west fronts are three magnifi-
cent arches which embrace more
than half of the entire facade. Each
of the arched openings will be 64
feet wide and 52 feet high. Through
the archways 14 jernment railroad
tracks will be laid from one end of
the building to the other. At the
sides of the three openings the pro-
jecting angles are accentuated by
tower or pylon effect, which reach
to a height of 150 feet to the base
of the crowning statue. The pylons
are not so much accentuated as to be
obtrusive, or out of harmony with

fine cow.

A YACHTING CONGRESSMAN
Representative Sibley's Latest Meth-
od of Coming to Congress.
Representative J. C. Sibley of Penn-
sylvania is a houseman, but he likes
automobiles and yachts and other
things like that, and he has them, says
the Washington correspondent of the
New York World. He came to Wash-
ington to attend the extra session of
congress in his yacht, which, in borsy
language, he says is "now hitched to
a post out in the Potomac." He takes
out parties of representatives on dull
days.
Representative Reidel of Ohio, who,
like Sibley, is a millionaire, was talking
about these trips the other day.
"First time Joe came to congress,"
he said, "he came on a common rail-
road train. Then he tried twice to
come and did not get here at all. Then
he came on a trolley and then in an
automobile. This time he came in a
yacht."
"He'll show up in a balloon next
time," said John Sherrill Williams.

Husking Corn Better Than Teaching.
When the pupils of a rural district in
Nebraska county, Kan., went to school
the other morning they found the
schoolhouse locked and this placard
tacked on the door: "Quit Teaching
and Go to Husking Corn. George
Richmond." This tells the story of the
shortage of schoolteachers in Kansas
at the present time, says a Topeka dis-
patch. Most any employment is more
remunerative than schoolteaching. It
is conservatively estimated by the state
superintendent of schools that at least
200 rural schools are closed now be-
cause of the scarcity of teachers. Sal-
aries for teachers range from \$10 to
\$40 in the rural districts.

Take KODOL for Dyspepsia

Repeated attacks of indigestion inflames the mucous membranes lining the stomach and exposes the nerves
of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This
is called Catarrh of the Stomach. It is caused by indigestion.
For many years it has been supposed that Catarrh of the Stomach caused indigestion and
dyspepsia, but the truth is exactly the opposite. First comes slight indigestion, then repeated
attacks of indigestion, and if something is not done the symptoms mentioned on the left follow in about
the order named. Some of these symptoms may not be experienced, while heartburn, headache, constipa-
tion and many others may be, but chronic dyspepsia and finally Catarrh of the Stomach is certain to be
the result if the proper treatment is not resorted to. KODOL
relieves inflammation of the mucous membranes lining the
stomach, protects the nerves, and enables the glands to secrete
the natural juices of digestion. Its use enables the stomach and
digestive organs to transform all of the wholesome food that
may be eaten into the kind of rich, red blood that makes
health, strength, tissue, brain, brawn and bone.

Recent experiments, by practical
tests and examination with the aid
of the X-Ray, establish it as a fact
that Catarrh of the Stomach is not
a disease in itself, but that it is a
condition resulting from repeated
attacks of indigestion.
The stomach and alimentary
canal or digestive tract, is lined or
coated with a mucous membrane.
Studding the surface of this mucous
membrane are the gastric glands.
Here, also, are the terminal branches
of the pneumogastric nerves, and
many branches from the sym-
thetic system.

WHAT IS A WAGE-EARNER?

The contention of some A. F. of L. delegates that insurance agents should not be taken into the fold, because they are not wage-earners, invites the question: "What constitutes a wage-earner?" If he is a man who earns his daily bread by the sweat of his face, then assuredly the insurance agent is a wage-earner, for no set of men on God's footstool, work their faces to fuller capacity.

Life insurance is no longer regarded as a luxury. The man whose life is not insured is the exception. In the last decade, industrial insurance, whereby a man may protect his family by making monthly payments instead of being obligated to pay a yearly premium in advance, has grown in popularity and takes the place in the workman's circle that old-line insurance holds in the business world. Fraternity insurance, in its variety of forms, has been growing apace, through the energy of the secret societies and today the number of insurance agents is legion. Some of these men work on commission, others on stated salaries, others on a combination form of the two, but it can be said without fear of contradiction, that every agent earns all he gets.

YOUR CHRISTMAS BUYING.

The shops and stores are already displaying holiday lines of goods, and wise shoppers are already considering their Christmas purchases. There is a very large number of people who always put this off until the last moment. The result is, the stores are jammed with buyers in the last few days before the great holiday, when clerks are hurried and overworked, and when the holiday stocks have been gone over by people who avoided the rush by making their purchases early.

It is easier and more satisfactory to decide what you intend to buy during early December, and to get it at once. You find more complete and fresher stocks in the hands of the merchants; the employees have time to attend to your wants, and to aid you in selections if called upon. In every way, shopping is more pleasant now than in the period from mid-December up to Christmas eve.

Those who can and will do their shopping before the great holiday rush of the unthinking in the latter part of December will save themselves much annoyance and receive the thanks of others who are inconvenienced by the throngs at that time.

HUNTING SEASON COMES TO CLOSE

Report Has it That John Holmes Gains Championship Belt.

Coshocton huntersmen are brought to the painful realization that the quail season is over and their trusty fowling piece must be carefully cleaned and laid away for another year; while their keen scented canines must be taken back to their kennels and allowed to grow fat and sleek.

If a resume of the hunting season in this section were to be given, it would not be a flattering one, so far as large records are concerned. Few hunters have experienced any difficulty this year in keeping within the limits of the law and restraining themselves from bringing home more than the prescribed twenty birds.

So far as The Age is able to learn John Holmes, who killed in one day seventy-three rabbits and eighteen quail, has the record. If there are others who can equal or beat this record The Age would be glad to hear from them and make the fact public.

The truth of the matter (in justice to the unerring eyesight of local hunters let it be proclaimed from the housetops) is that there has been a great scarcity of game in this vicinity; and (let it also be recorded) they are still scarcer now. Once more the festive bob white will be permitted to settle himself to domestic affairs.

DR. PIATT ON EXECUTIVE COM.

Cambridge Selected For Next Year's Meeting Of Teachers.

Dr. Herman S. Piatt has returned from the Eastern Ohio Teachers' association meeting at East Liverpool. He was again honored by being made a member of the executive committee, at the election held Saturday afternoon. Cambridge was named as the place for next year's convention. The officers elected are as follows:

President, Supt. R. E. Rayman, East Liverpool; vice president, Miss Neva Tardick, Newcomerstown; secretary, Miss Emma Fletcher, Bridgeport; treasurer, D. J. Schaefer, Dresden; executive committee, Supt. C. L. Cronebrake, Cambridge; Supt. H. S. Piatt, Coshocton; Supt. Wilson, Hawkins, Mingo Junction.

WATER DAMAGES STOCK OF GOODS

Accident in Athletic Rooms Does \$300 Damage to Cash Store.

The bursting of the stop cock to the shower bath in the Athletic club rooms did several hundred dollars worth of damage to the Cash Store. It happened sometime during Monday night and was not discovered until this morning. The bath room of the club is on the third floor in the Ricketts building. The water went through the floor into the club kitchen below where it completely flooded everything. From there it poured downward into the Cash Store room where it played havoc with the grocery supplies. Mr. Burch can hardly estimate his loss but states that it will reach at least \$200.

AWFUL BLOW FOR WOMEN.

Lack of Faith Must Result From a Recent Disturbing Discovery.

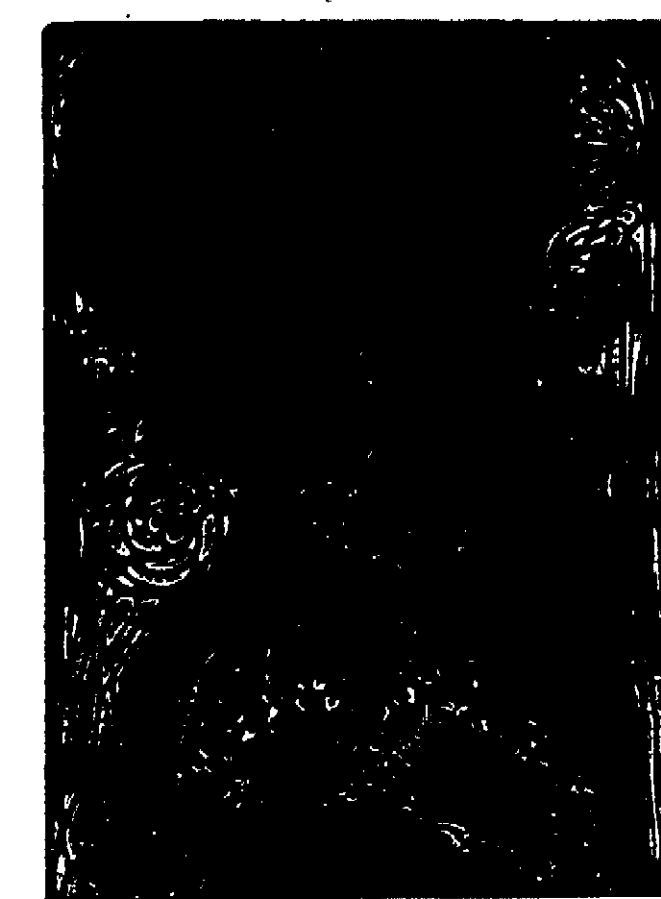

In these days when there is a tidal wave in financial circles and the fear that some foolish or malicious story may discredit the soundness and reliability of any institution, no matter how stable and enduring it may be, it cannot lighten the burden of apprehension to learn that confidence has been shaken in another of the great depositories of the thrifty, one particularly confident and trusted in by feminine depositors, says the St. Louis Globe-Democrat. Mrs. Frances Sterling of New York placed \$25,000 worth of jewels and \$400 in money in a small box in her stocking, on starting from Washington for her home at the Powhattan apartments, New York, and on arriving there found that the box had worked a hole in the stocking and was lost.

This incident will appall thousands in all parts of the country and cannot fail to convince women that their faith in that last resort in times of financial stress is but a rope of sand. Banks may break, trust companies refuse to disburse, even safety deposit boxes be subject to burglary, peculation and rapine by mobs, but never has this repository of ladies' savings been looked on with dubiety. It has stood the test of nearly half a dozen panics. When the monetary storms of '37, '37, '73 and '93 swept the country not a stocking broke. In such high esteem were they held by those who depended upon them and had dealings with them that there is no recorded instance of a run on them. There they stood, an example to all mankind and woman-kind of an honorably guarded trust. But now what are we to think? One of these institutions has failed, and failed utterly. It will not repay a cent on the dollar. It is the most disastrous failure in proportion to the capital involved that has been known in our national history. No excuses are offered. The money, the jewels, even part of the stocking, are gone. We stand crushed before such an instance of betrayal of trust. Is there no thing safe?

How a Crow Helped a Golf Player.

An extraordinary incident occurred during a recent game on the Cairo golf links in Egypt, says the New York Herald. One player had just driven off from a tee. He had made a splendid drive and was watching the tumbling ball with satisfaction when suddenly a large crow swooped down on it and bore it off. The player and his caddy gave chase, the latter cursing volubly in Arabic. This evidently had its effect, for the crow dropped the ball on the putting green within a few inches of the hole, and the delighted player holed it out in two, while his opponent looked on gloomily and made uncomplimentary remarks about the bird.

HON. JOHN J. LENTZ TO ADDRESS COSHOCTON ELKS

Hon. John J. Lentz, of Columbus, one of the most noted orators in the country, is to address the Coshocton Elks next Sunday afternoon, upon the occasion of their annual memorial service in honor of their departed brothers.

The annual custom of the great order is a beautiful one, and is generally attended, by scores of their friends, the public always being given a cordial attention to attend. Coshocton lodge is especially fortunate this year in having suffered

no deaths in the last twelve-month. Consequently the customary individual eulogies will be dispensed with. The opportunity of hearing so noted an orator as Mr. Lentz will doubtless be avidly grasped by the people of the city.

The services will be held in Grace M. E. church.

The Elks will hold a social session Monday night December 8 at their club rooms, to be a stag affair and officially heralded as "A Night in Munich."

He Loves Not Love

The blushing boy and the tyrannical maid seem like paradoxical terms, but there is a striking example in daily life, so it is claimed by students in the high school. Think of it! A high school lad going home by back alleys to escape the teasing of a girl!

The lad is a studious young chap, engrossed with his books and not at all given to "girling," as the boys express it. He is tall for his age, and spends his time in studious pursuits instead of upon the football field, or with the girls. For a time his contentment was serene and his peace perfect, for he went quietly on his own way, always up in his lessons, and always with the respect and confidence of his teachers. But now, alas, all is changed. His hours from his desk are full of terror and woe to him. His mind is a whirl and every petticoat that swings in his eyes, gives him an acute attack, bordering upon hysteria.

A bright eyed little maid of the grammar grade of the Chestnut street school is said to be the thorn in his side. One day she saw how his lashes drooped when a girl spoke to him, and the hoidenish lass straightway went up to him, and before he knew what was happening, gave him a resounding smack square on the lips. The lad gasped and gurgled and ran.

Ever since, the girl waylays him and steals up behind and throws her arms about him and kisses him, to his utter dismay and confusion.

That is the reason the boy goes home over the back lots and through alleys. But the osculatory maid persists in her demonstrations and his peace is shattered.

Alleged Legislative Combine.

St. Louis, Dec. 1.—The grand jury has summoned Andrew Gazzolo, speaker, and a number of other members of the house of delegates for the purpose of investigating the methods involved in the granting of franchises by the present house. SOCIETY ..CHAT..

Card Party.
Miss Agnes Hanlon entertained at cards Saturday evening at her home on Main street in honor of her guests, Miss Frost, Miss McGee and Miss Cornwall. There were four tables at pedro and one table at finch. The prizes, bunches of lovely chrysanthemums, were won by Miss Delva Speckman and Miss Frost. A delicious collation was served after the game. Among the twenty-five guests present were Miss Maddock, of Delaware and Miss Wells of Wellsville.

Chautauqua Circle.
The Chautauqua circle met Monday evening with Mrs. E. C. Carr at her home on Chestnut street. Roll call was responded to by current events of interest.
The first paper was by Miss Cutting and was an interesting character sketch of "Emerson." Miss Cairns delightfully entertained her hearers by a splendidly rendered reading of "The Landing of the Pilgrims."
Miss Mabel Hamilton followed with an interesting paper "A reading Journey Through Alaska."
"Geographical Influence in American History" was the subject of a carefully prepared paper by Miss Pauline Weissner.
After which a charming piano solo was given by Miss Ione Adams.
The next meeting will be held with Mrs. R. A. Powelson on South Fourth street.

Six O'clock Dinner.
Mrs. Robert Hagans will entertain a few friends at six o'clock dinner at her home on East Chestnut street this evening in honor of James Hagans, who recently returned from Vicksburg, Miss.

Miss Lerner One entertained the following ladies at her home on Chestnut street Monday afternoon in honor of her sister, Mrs. Joseph Dandworth, of Piqua; Mrs. Joseph Callahan, Mrs. Agnes Hagans, Mrs. J. F. Meek, Mrs. John Siegrist, Mrs. Seth M. Snyder and Miss Leila Biggs.

Cooking Club.
The choral cooking club will be entertained this evening by Mr. and Mrs. Warner Hay at their home on Main street.

Fearful of Women.
In a sermon on "Women," Rev. Dr. D. M. Hillis of Brooklyn, has sounded a warning note to young men in business life.
"If you don't want women to outstrip you in the industrial race," he said, "and compel you to come to them when you want 50 cents, you would better stop drinking poor whiskey and quit gambling at race tracks and in pool rooms."
"Women," continued Dr. Hillis, "in spite of man's refusal to give them the rights and privileges to which they are entitled, are today in 145 branches of business and in instances showing more ability than the men."
"In one of the greatest financial institutions of this city not long ago a well-known man, drawing a salary of \$25.00 a year, suffered a nervous collapse. The directors selected to take his place the young woman who for ten years had been the stenographer. The directors told me she has done better work than the men she succeeded, and is doing it for but \$10,000 a year."
"In fifty years the women will know more than the men. They have more time to read and study, and they are improving their time. Eventually they will vote and tell the men for whom they shall vote."
"Eventually all the universities will be co-educational, and the women will carry off all the prizes."

The Orphan club will hold an important rehearsal this evening at 7:30 o'clock in the lecture room of the Presbyterian church. The club is busily engaged in preparation of the oratorio "The Messiah" which they intend presenting shortly after Christmas.

Turkey Dinner.
The members of the Funnyduffer club issued invitations to their gentlemen friends today for a Turkey dinner to be given at the home of Miss Edith Johnson on South Fourth street Friday evening.

A Woman's Right to the Ballot.
The world is not governed entirely by politics or by dogmatic theology, but by a universal belief that mankind can be made better. Women should have the opportunity of voting, not as a privilege, but as a right. Public men make the mistake of regarding the vote as a privilege when it is a right. Women's votes will temper, if they do not neutralize the passion engendered by authority; the voice of the woman, if it could be heard, would relieve the country of this enormous burden of war.—Ex-Gov. Boutwell of Massachusetts

What is "MONARCH?"
Sir Henry's Next Reply to a Criticism on His "Dante."
No great actor on the stage is more heedful, cautious and polite to his critics than Sir Henry Irving, says the Boston Herald. For instance, he acknowledges the receipt of this criticism of the internal scene in his "Dante":
"My Dear Sir—I am a member of the electrical fraternity and saw your play of "Dante" last evening. It may be allowed to express an opinion, I want to tell you that the internal scene was very bad. The sunset ripple was woefully lacking in effect. It was certainly not true to nature, if it was so intended."
To which Sir Henry replies:
Really your criticism is quite apt. You see, the ripple got turned upside down that night by some mechanical error, and the rain, instead of falling down, fell up. I don't wonder you didn't think it true to nature. How could you?
And Sir Henry smiles audibly.

FIRST SCHOOL IN THIS STATE

Old Indian School in Tuscarawas the First Public One.

Rev. W. H. Rice, pastor of the Moravian church at Guadenhutzen is authority for the statement that the site of the first common school in Ohio was located at Schoenbrun, the historic Indian town about two miles south of New Philadelphia. It was established by John Heckewelder, the Moravian missionary, for the education of the Indian children at that place.

It is proposed to mark the spot by a suitable monument during the centennial celebration at New Philadelphia next year, the money to be raised by the penny, nickel and dime contributions of the school children of Tuscarawas.—Dennison Paragraph

WILL SURELY CURE YOU

If it doesn't your money will be returned.

A STRONG ENDORSEMENT

New York, July 27, 1901.

The Vetter Dyspepsia Remedy Co., Cleveland, Ohio:

After months of suffering with dyspepsia, and having vainly sought for relief through the aid of doctors and a number of so-called dyspepsia cures, at the suggestion of a friend I tried your "Remedy" and obtained relief within twenty-four hours. I continued the use of the "Remedy" until I had used three bottles, and since that time, now more than a year gone by, I have not had a recurrence of the trouble, and am able to partake of any and all foods that I may desire.

I certainly consider Vetter's Dyspepsia Remedy a boon to all who may be afflicted as I was, and shall surely recommend it whenever the opportunity presents itself.

Yours very truly,
EFFIE ELLSNER.

The World's Babies

Marian West in Everybody's Magazine for December.

The babies sat in solemn conclave on the floor of heaven. Without the gate the stork waited patiently, dozing on one leg. The scroll he had brought was being untied by an important-looking infant with a bumpy forehead, who spread it on the floor in front of him.

"Seventeen applications," he announced, and a little shiver of excitement went through the assembly; there were just seventeen babies ready. Wrinkle sat absolutely still for the moment, and even Pudding took her toe out of her mouth.

"First case," went on Mumps: "Young couple, living in a well-kept and sanitary apartment. Preferred, a girl-babe of reasonable disposition. Methods of care and training entirely modern; baby will not be held unnecessarily, will be expected to eat and sleep at regular hours. No night-walking, no baby-talk; the titles Father and Mother will be used. Punishment will never be arbitrary, but always the logical outcome of the offence. Perfect and instant obedience will be taught, by means of kindness and firmness. We are determined that our child shall not be spoiled, like most of the children we know. We cannot put up with anything but a quiet and orderly household, and shall expect the child to conform to our ways. We are prepared to give it great affection and all the advantages in our power."

Bumps laid down the parchment, and a little sigh ran around the assembly. All the girl-babies eyed one another uneasily.

"Oh, it's just a theory," said Bumps consolingly. "They will get over it, after the first. People never send up that way twice. I'll bet." Then his gaze met the little twinkling brown eyes of Wrinkle. He smiled suddenly. "Say, Wrinkle, I think you would fit in rather well here—better than any girl," he suggested. Wrinkle looked surprised, then interested. "I am sure you would prove a liberal education," Bumps added, significantly.

A gleam of dawning mischief spread over Wrinkle's impish little brown face. He leaned down on the parchment, the girls watching him eagerly, and presently he began to chuckle as his finger followed the various items.

"To conform to our ways—oh, my!" he murmured. Everybody laughed, and Wrinkle sprang up with a gleeful whoop. "Oh, won't I show them!" he said. A moment later he was swinging in a cloak from the stork's beak and the wings were spread.

RECTOR OF ST. LUKE'S, Ashburnham, Ontario. Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 18, 1902—I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your Cough Remedy. I at once procured a sample bottle, and took about three doses of the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy.

Respectfully yours,
E. A. Langfeldt, M. A.
Rector of St. Luke's Church.

State to Investigate Epidemic. Harrisburg, Pa., Dec. 1.—Governor Pennypacker instructed Dr. Benjamin Lee, secretary of the state board of health, to make an examination into the condition of the typhoid epidemic at Butler and report with a view to possible assistance by the state out of the fund of \$50,000 created by the last legislature for the suppression of epidemics.

Coldest in Twenty-Five Years. Rome, Dec. 1.—Severe weather continues throughout Italy. For 25 years past there has been no such barometric depression as that now recorded in Rome. On the coast near Naples the bodies of several sailors have been found. An Italian cutter has been wrecked and her crew of seven lost. Near Avellino much damage has been done.

WHAT IS CATARRH?

Hyomel Cures This Common and Disagreeable Disease.

Hyomel cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of catarrhal poison, heals and soothes the irritated mucous membrane, enters the blood with the oxygen and kills the germs present there, effectually driving this disease from the system.

The complete Hyomel outfit costs but \$1.00 and comprises an inhaler, a bottle of Hyomel and a dropper. The inhaler will last a lifetime, and additional bottles of Hyomel can be obtained for 50c.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the lungs.

Offensive breath, dryness of the nose, pain across the eyes, pain in back of the head, pain in front of the head, tendency to take cold, burning pain in the throat, hawking to clear the throat, pain in the chest, a cough, stitch in side, loss of flesh, variable appetite, low spirited at times, raising of frothy mucus, expectorating yellow matter, difficulty in breathing, frequent sneezing, huskiness of voice, discharge from the nose, stoppage of the nose at night, aching of the body, droppings in the throat, mouth open while sleeping, tickling back of the palate, formation of crusts in the nose, dryness of the throat in the morning, loss of strength, spasms of coughing, cough short and hacking, cough worse nights and mornings, loss in vital force, a feeling of tightness across the upper part of the chest.

Hyomel will destroy activity of all catarrhal germs in the respiratory organs and in a few weeks the cure will be complete.

This is a strong statement, but C. E. Anderson emphasizes it by agreeing to refund your money if Hyomel does not cure.

SEA LIONS AS PETS.

Great Demand For Them Both Here and Abroad.

The latest California product in considerable demand in eastern and European cities is the sea lion, says the San Francisco Examiner. Captain J. R. Mullett of Detroit, Mich., who arrived at San Francisco recently, is the authority for the statement. He says he has orders for more live sea lions than he can fill.

It has become quite the fad among New York millionaires to have one or two sea lions as pets in little lakes on their country estates. The California sea lion also has a ready sale in all the European zoological gardens owing to its size and attractive appearance. Captain Mullett has gone to Santa Barbara, where he will take a gasoline schooner and embark on a hunting cruise around the Santa Barbara islands. He expects to capture thirty or forty of the seals with little difficulty.

In discussing his sea lion trade Captain Mullett said that he captured thirty of the animals last spring on the island of Santa Cruz. They were caught while they were on land by the aid of lassos and nets. The seals make a desperate fight for their liberty, but after being placed in crates they become comparatively docile in two or three days.

When a sufficient number have been captured they are taken to the east in a special car in charge of an attendant, who feeds them on fish and gives them an occasional bath. In New York they are fattened, and if they are to be shipped to Europe they are given several weeks' rest. The percentage of those dying is small. In fact, Captain Mullett says they thrive and grow much larger in captivity than when they are in their wild natural state.

The management of the zoological gardens at Antwerp purchased ten California sea lions last spring. These are all doing well and proved such an attraction that a number of other European cities have placed orders for them.

Negotiations Proceed Slowly. St. Petersburg, Dec. 1.—Russia's reply to Japan in the negotiations now going on at Tokyo regarding the far eastern situation is not yet ready. The subject is being carefully considered at the foreign office and at Skiernewice, where the czar now is. As the exchanges of opinions between the czar and his advisers are proceeding by correspondence, progress is necessarily slow. The foreign office officials offer no intimation as to when the reply will be ready.

Prairie Fires Raging. Guthrie, O. T., Dec. 1.—Prairie fires are raging in the western part of Caddo county, south of the Washita river. Many homes are reported to have been burned between Fort Cobb and Anadarko. The fire took a swath of five to six miles wide, destroying everything in its path, though so far no lives are reported lost.

Hearst Inquiry Postponed. Washington Dec. 1.—The interstate commerce commission has postponed until Jan. 18 the hearing to be held in this city in the case of W. R. Hearst of New York against the anthracite coal-carrying roads, involving alleged unjust rates on coal from the anthracite fields to the seaboard.

THE STAGE

One of the sterling attractions of
the season is F. R. Hallam's sum-
ptuous revival of "Damon and Pythias"
and playgoers will be pleased
to hear that it will be seen at the
Sixth Street theatre on Dec. 4.
There are some plays that never
grow old and "Damon and Pythias"
belongs to this class. The story is of
such absorbing interest, the senti-
ment so noble and the characters so
intensely human that the popularity
of the play is not to be wondered at.
The management has spared no ex-
pense to make the present rival one
of the most perfect presentations the
play has ever been given. A magnifi-
cent scenic equipment has been pro-
vided, the costumes are all new,
elaborate and correct and the acting
company could hardly be improved
upon. Edwin S. McKim has played
the role of Damon over 1000 times.
He is a brilliant young actor who
has made this famous role peculiarly
his own. Frank Hennig, the Pythias,
is one of the greatest legitimate
actors of the day. For twelve seas-
ons he was leading man for Thomas
Keene and also filled similar posi-
tions with Frederick Warde and oth-
er noted tragedians. Harry D. Clif-
ton, the Dionysius, played this same
role formerly with Frederick Warde
and Louis James. Marguerite Calla.

Thanks to Local Ath-

A letter has been received by the
manager of the Coshocton Athletic
club football team from the manager
of the Dover Giants complimenting
the Coshocton boys on the manner in
which they treated the Dover team
while they were here Thanksgiving.
They also extend an invitation to the
Coshocton team to visit the Dover
Athletic club at any time. The Dover
boys are arranging to build an
athletic park and will have two foot-
ball teams next season as well as a
base ball team and a basket ball team
all under one management. Next
year the "Dover Giants" will be
known as the "Dover Athletic Club
team."

Dan Patch's New Records.
Macon, Ga., Dec. 1.—In the face of
a cold and driving wind, and with the
temperature at 47 degrees, Dan Patch,
the world's greatest pacer, broke two
world's records. To a high-wheel
sulky he lowered Directum's record of
2:06 for a mile to 2:04 1/4. The time
by quarters was :31, :59 1/4, :1:14 and
1:41. Five minutes later, to the usual
track sulky, he went two miles in
4:17, lowering Nervola's record by
two seconds. He was driven by M. F.
McHenry, and the claim is made that,
under the weather conditions, the
paces were perhaps the fastest ever
known.

suffered from backache for years, was
often not able to do my work, and at times
was confined to my bed. In the winter of

the pains in my back were more severe

A recent issue of the Reading (Pa.)
Eagle speaks in glowing terms of
"Bill" Lamma, a former Coshocton
boy, who is prominently identified
with athletic sports in the Pennsylv-
ania city. Lamma plays right half
back on the Reading Athletic club
football team and is the star player
of the aggregation—sort of the
Carnegie of it as it were. The Eagle
says of him in a recent game, "Lam-
ma's tackling, end runs, and line
plunges were the best ever seen in
the city." Again, "When within 50
yards of the goal, Lamma broke
through the whole Parkside team
and made one of the most specta-
cular runs for a touchdown ever wit-
nessed in Reading. The cheering
was deafening when he crossed the
line."

FOUNTAIN ITEMS

The big rush is now on. People are beginning to realize that winter is here. Thousands of customers visited the business district Saturday. We appreciate very much the liberal patronage bestowed upon us throughout our many departments. It was a record breaking day for business at the Fountain. Every department was thronged with eager buyers. Our 40 sales people were kept very busy. As the season advances we will still increase our force to meet the demands of the public.

It's our aim to give prompt service throughout the store. Every effort possible will be put forth by the company to give the patrons of the Fountain every convenience possible for their comfort while shopping. We are endeavoring to establish in Coshocton a modern store conducted on modern methods of merchandising. We are confident the people of Coshocton are going to appreciate the Big Store. Our hopes have been more than realized up to this time, all for which we are very thankful.

HOLIDAY BUSINESS

This is the season of the year when you will begin to plan your holiday demands. During the past week we have opened a car load of Holiday Novelties. We are busy now arranging same and will soon be prepared to show you a line of Holiday Goods

equal to any shown in our large city stores. You must go through and investigate for yourself, take in all the lines shown, satisfy yourself where to buy. We are willing to abide by your decision.

TABLE LINENS

We are making our first display of our own import of fine Table Linens, Napkins and Pattern Cloths. We have no hesitancy in saying no such a line of Table Linens have ever been shown in this market. Our prices are right, our patterns are all new. Investigate for yourself. See if the Fountain is not making celebrated cloths you will never want in this department as well as others any other. We have in stock today more than fifty patterns of bleached and unbleached linens ranging in

price from 25c per yard up to \$2.50. Napkins to match all the better grades. Now we don't care to dwell longer on the subject of linens, farther than to say we have the goods. Our prices are right, our patterns are all new. Investigate for yourself. See if the Fountain is not making celebrated cloths you will never want in this department as well as others any other. We have in stock today more than fifty patterns of bleached and unbleached linens ranging in

DRESS GOODS DEPARTMENT

Our line of fine imported Novelties is the talk of the town. We have every grade from 50c per yard to \$2.50. Our greatest showing is at \$1.00, \$1.25 and \$1.50. Silks and trimmings in all the newest styles. Our Domestic Dress Goods always on line of trimmings is the largest and by far the finest we have ever shown.

If you want nice trimmings you can get them at the Fountain. Visit this department when in the store, you are sure to get just what you want. A very large stock of Foreign and Domestic Dress Goods always on hand. will guarantee satisfaction.

SUITS, WRAPS AND FURS

This is one of our largest departments. You cannot help but find just what you want in this line. We have Ladies' Suits at \$7.50 to \$37.00. Wraps at \$5.00 to \$50.00. Fur Scarfs from 75c to \$50.00. Every style of Furs are represented in our showing. We call your especial attention to the perfect skins used in the scarfs we are offering. Even the low

priced ones are made with the same care as the expensive ones. You cannot afford to miss this the greatest line of furs ever shown in the city. Visit the Big Store when in Coshocton. Every style of Dry Goods, Carpets, Draperies, Hosiery, Underwear, Cloaks, Suits, China House Furnishings, we will guarantee satisfaction.

ANZONA GOES BACK TO PRISON

Half-Breed Barber Returned To Reformatory at Mansfield.

Frank Anzona, a negro barber employed at Robert Dorsey's shop, will be taken to the reformatory at Mansfield Wednesday, from which he was released a short time ago on parole. He is said to be half Indian.

Anzona was arrested Monday night for intoxication, and was locked up with Charles Wilson, in on the same charge, and a hobo named William Burner. These two men are accused in the unprintable crime for which he is to be returned to the reformatory, and of which he has acknowledged his guilt. Turnkey Decker later locked Anzona in a solitary cell. The crime with which he is charged is punishable with a term of from one to twenty years in the penitentiary. The sentences in the reformatory are determined only by the behavior of the prisoner. Anzona hails from Toledo.

COURT HOUSE

The jury in the case of Samuel Wilhelm vs. The Pennsylvania company brought in a verdict of \$2500 damages for the plaintiff this morning after deliberating about two hours. Wilhelm was injured by being knocked fifteen feet by a gravel train while he was removing the gravel from beneath the cars. Capt. E. W. James was his attorney and Judge Dunbar, of Steubenville, represented the company.

The case of Marion L. Sprague vs. the Pennsylvania company has been transferred from the common pleas court of this county to the Southern Judicial District at Columbus. Sprague, it will be remembered, was seriously injured by falling from the Washington trestle last February while engaged in replacing ties. The removal or transfer of the case was granted by Judge Eason on a motion of the company's attorneys. The same thing was done some time ago in the case of Axline vs. the Pennsylvania.

Zerbe Case.

The case of Zerbe vs. Barnes was taken up this morning, and will be disposed of as soon as possible. Zerbe asks for \$2000 damages for injuries to his stock of goods on account of Barnes' refusal to vacate the west room of the Park hotel building which Zerbe had leased from Mr. Rittenhouse.

INFORMATION FOR MOSELY.

Country Schoolboy's View of What Americans Can Do to John Bull.

The members of the Mosely educational commission visited a typical "deestrick school" at Palos, Ill., the other day, and through their desire to have the pupils questioned gained some decidedly unwelcome information, says the Chicago News. The following dialogue tells the story:

The boy in the third seat back, what's your name? Richard O'Connell.

You have studied history? What did we have in 1776? The Revolution.

Against whom was it? The British redcoats.

What did we do to them? We licked 'em.

Did we ever have any more trouble with them? Yes, in 1812. We licked them again.

If we ever had any more trouble with them would we lick them? You bet.

JACK FROST IN CA-

HOOTS WITH PLUMBER.

Already the weather is cold enough to make plenty of work for the plumber. Pipes began to burst for the first time Monday night and the plumber's telephone will know no rest from now until spring. A pipe at the Coshocton Athletic club burst last night and flooded the floor before the rooms could be unlocked and the water shut off.

What is "MONARCH?"

The Luxuries of Labor in Iowa.

A Union county farmer who has found farm hands difficult to secure has formulated this set of rules, which should prove a winning card, says the Shenandoah (Ia.) Sentinel:

"Wages will be \$6 a day. Breakfast will be served in bed. Working hours will be from 10 a. m. to 2 p. m. All heavy work is to be done by the boss. Cigars furnished free. Any hand working the entire season can have the farm."

A Bishop in Favor of Cremation.

The bishop of Worcester, England, at the opening of the crematorium in Birmingham recently by Sir Henry Thompson wrote that he desired when he died that his body might be reduced to ashes as rapidly as possible, so that the dead should do no harm to the living, says the Church Eclectic. He saw no serious Christian argument against such a practice, while from the sanitary point of view it had enormous advantages.

ENGLISH LUTHERANS

ENJOY NEW CHURCH

More than ordinary interest is being manifested in the meetings held every night in the new English Lutheran church on Walnut street. Services are to be held every night this week except Saturday, the preachers on the different occasions being as follows:

Tonight, Rev. C. K. Hatton, of Columbus.

Wednesday, not yet selected.

Thursday, Rev. Mr. Warrick, of Stoutsville.

Friday, Rev. Dr. Richards, of Zanesville.

Rev. Mr. Weber and his congregation are beginning to feel quite at home in their handsome little church.

Criminals as Soldiers.

Vienna, Nov. 30.—As illustrating the necessity for the reorganization of the Turkish gendarmerie in Macedonia, the Politische Correspondenz states that in certain parts of those vilayets over 30 per cent of the officers and men of the constabulary are former brigands or criminals. The notorious robber chief Karakitscho, who for six years operated in the Sanjak of Serdiche, in the vilayet of Monastir, was recently pardoned, says the paper, and given a post in the gendarmerie. Another recruit to the Turkish service is the Macedonian leader Lieutenant Stokoff, who took a prominent part in the recent revolution. He has been appointed a lieutenant of gendarmerie.

SOLDIER ANSWERS THE LONG ROLL

John Clark, an aged and respected citizen, who for many years has resided at Coalport, passed to his last home Monday evening at 5:15 o'clock. He has been suffering with kidney trouble for over a year. His wife died about thirty-one years ago. Mr. Clark was a soldier in the civil war, and was a member of the 198th regiment. He leaves seven children to mourn his death. He was seventy-nine years of age last August. Funeral services will be conducted Wednesday afternoon at 2:30 and interment made at the Coalport cemetery.

NEW CARTRIDGE CARRIER.

American Troops Will Have a Device Suspended From Shoulders.

The war department has commenced the manufacture of a cartridge carrier with suspenders attached with which the entire army marine corps and national guard will be equipped, says a Fort Riley (Kan.) dispatch to the Kansas City Star. The device will take the place of the present cartridge belt. When the department decided to arm the troops with the new Springfield rifle it became necessary to devise a substitute for the present double loop cartridge belt, as the ammunition for it is carried on clips with five cartridges to the clip. The fabric is dyed in the same shade of khaki color as the service uniform.

The new belt has nine pockets, each of the proper size for holding two clips, giving a capacity of ninety rounds in the entire belt. One pocket will be used, however, for carrying the first aid package. The suspenders, which are two and a quarter inches wide, remove the greater part of the load from the hips, which is wearying to marching men. The canteen and haversack may be suspended from the belt.

PROF. CONKLIN'S DANCE.

Prof. Conklin will hold a reception Wednesday evening for his pupils, patrons, and their friends, at 9 o'clock. Dancing until 12. Ices will be served. Regular school at 7 p. m.
